

ANTRONIC A

MERN Stack Developer | 8015579731 | Mail | LinkedIn | Portfolio | Chennai

Professional Summary

Passionate MERN Stack Developer and B.Tech student in Artificial Intelligence and Data Science with expertise in full-stack web development. Proficient in JavaScript ES6+, React.js with Hooks, Node.js, Express.js, MongoDB, and RESTful API development. Experienced in building responsive web applications, implementing secure authentication systems, state management with Redux, and developing scalable web solutions. Skilled in Git workflow, version control, and API integration with proven ability to optimize performance and deliver efficient applications.

Education

Rajalakshmi Institute Of Technology, B.Tech Artificial Intelligence And Data Science

2023 – 2027

- GPA: 8.2/10

Shri Ramana Vikas Higher Secondary School

- HSC: 92.7
- SSLC: Pass

Technical Skills

Frontend: HTML5, CSS3, JavaScript ES6+, React.js, React Hooks, Redux, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, Mongoose ODM

Database: MongoDB, Database Design, Data Modeling

Tools & Technologies: Git, GitHub, Visual Studio Code, Postman, NPM, Version Control

Development Practices: API Integration, Testing, MERN Stack

Soft Skills: Problem Solving, Time Management, Fast Learner, Adaptability, Team Collaboration

Internship

Web Developer Intern, VaultofCodes

- Developed and deployed responsive web applications using MERN stack technologies, improving user experience by 25%
- Engineered RESTful APIs and implemented secure authentication systems, enhancing application security and performance
- Collaborated in team development environment, contributing to real-world projects and optimizing code efficiency
- Debugged and maintained existing codebases, reducing bug reports by 30% through systematic testing approaches

Projects

Exam Seating Arrangement Web Application

GitHub

- Engineered a full-stack web application using Python Flask, JavaScript ES6+, HTML5, and CSS3 to automate exam seating arrangements for 500+ students across 4 departments
- Implemented intelligent seat allocation algorithms with round-robin distribution logic, reducing manual arrangement time by 80% and ensuring 100% classroom utilization efficiency
- Designed and deployed secure admin and student portals with authentication systems, CSV data processing capabilities, and real-time search functionality using roll numbers
- Optimized database queries and API responses, achieving 60% faster load times and seamless user experience across multiple devices

Certifications

- [Creating Websites Using HTML](#)
- [CSS Full Course \(LinkedIn\)](#)
